# **Manitoba Economic Highlights**

## **Economic Overview**

#### **Real Gross Domestic Product**

- O Statistics Canada estimated that Manitoba real GDP was unchanged in 2009 the best performance among the provinces and the only province to not have a decline in the value of real GDP. Canada is estimated to have declined by 2.5%
- O In 2010, the Survey of Major Economic Forecasters projects that the Manitoba economy will grow 2.6% below Canada's 3.2% growth and 2.7% in 2011 above the 2.5% national growth rate.
- The Manitoba Bureau of Statistics will release revised estimate for Manitoba 2009 GDP in late November.

# Real GDP (% Change)

#### **Consumer Price Index**

- O In the first nine months, the Manitoba CPI increased 0.7% compared to the 1.6% Canadian increase. The clothing, shelter and food components of the Manitoba CPI are all lower on a year-to-date basis.
- O In 2009, the Manitoba CPI increased 0.6% compared to the 0.3% national increase.

- Manitoba real GDP economic performance exceeded Canadian performance for 4 consecutive years from 2006 to 2009.
- Statistics Canada estimates that Manitoba was the only province to have an increase in the value of real GDP in 2009.
- Manitoba's population increased by 15,850 in the year ending July 1, 2010, the best performance since at least 1972.
- In 2010, Manitoba has the second lowest unemployment and youth unemployment rate.
- In 2009, there were only 65 business bankruptcies in Manitoba, the lowest level since 1977.
  - o Food (5.3%) had the largest increase while energy declined 11.4% in 2009

## Labour Market

# **Employment**

- o In the first ten months of 2010, Manitoba's employment increased by 11,700 or 1.9% above the national increase of 1.6%.
- O In 2009 Manitoba's employment increased by 200 compared to a national decrease of 276,900. Manitoba was one of only three provinces to post an increase in employment last year.

Employment (% Change)					
	2009	2010ytd			
Manitoba					
Total Employment	0.0	1.9			
Full-Time	0.1	1.0			
Part-Time	(0.1)	5.9			
Canada					
Total Employment	(1.6)	1.6			

## **Unemployment Rate**

- O In the first ten months of 2010, Manitoba's unemployment rate was 5.4%, second lowest behind Saskatchewan. The youth unemployment rate was 11.0%, also second lowest in Canada.
- Historically, Manitoba's unemployment rate has averaged 2.0 to 2.5 percentage points below Canada. In 2009, this spread increased to 3.1 points.
- From 1998 to 2009, Manitoba had the lowest annual unemployment rate among provinces five times, and the second-lowest rate five times.

# **Average Weekly Earnings**

- In the first eight months of 2010, average weekly earnings in Manitoba were up 1.7% below Canada's increase of 3.2%.
- O In 2009, average weekly earnings in Manitoba were up 2.8%, above Canada's increase of 1.6% and fourth highest among provinces.

# **Population**

- As of July 1, 2010, Manitoba's population stood at 1,235,412, a one-year increase of 15,850 persons. This 1.3% increase was fourth best among provinces.
- The official population for a year is based on July 1<sup>st</sup> which for Manitoba in 2010 was 1,235,412, an increase of 1.3%
- The most significant factor driving Manitoba's population growth is the Provincial Nominee Program. Since it began immigrants entering Manitoba under PNP has steadily increased.

# **Net Migration**

- In the year ending July 1, 2010, 10,303 more people moved to Manitoba than left.
- During the same period, net international inmigration totaled 12,483, more than the net inter-provincial out-migration of 2,182.

# **Economic Activity**

# **Manufacturing Sales**

- In the first eight months of 2010, Manitoba manufacturing sales declined 6.2% compared to a 9.8% national increase.
- O In the first eight months of 2010, three Manitoba industries increased. Other nondurables, non-metallic minerals and primary metals lead the growth industries while 12 industries have declined.
- O In 2009, Manitoba manufacturing sales decreased 10.7% to \$14.6 billion. Canadian sales declined 17.7%. Manitoba's performance bettered the national average for the ninth consecutive year.
- O In 2009, three Manitoba industries increased sales led by electrical appliances (14.4%) and machinery (0.6%) while twelve industries declined with primary metals, wood, printing and paper industries leading the losses.

Industries with Strongest Growth in the Value of Manufacturing Sales (% Change)				
	2009	2010ytd		
Oth. non-durables	(7.5)	18.3		
Non-metallic min.	(13.9)	15.4		
Primary metals	(29.7)	10.5		

# **Farm Cash Receipts**

- NOTE: Statistics Canada will not be releasing second quarter data until November.
- In the first quarter of 2010, Manitoba cash receipts declined 4.4% to \$1.4 billion.
- O Crop receipts decreased 6.9% due to declines in specialty and forage, vegetables and oilseeds. Wheat receipts rose 9.1%. Livestock receipts were down 8.8% on weakness in cattle and hog receipts. Direct payments increased 55.5%.
- Manitoba cash receipts decreased 0.5% in 2009 to \$4.8 billion. Manitoba's decline of

- 0.5% was the third best performance among provinces.
- O Crop receipts were up 1.1% with weakness in grains and specialty and forage receipts offset by gains in oilseeds and vegetables. Livestock receipts declined 4.8% with weakness in cattle offsetting gains in hog receipts. Direct payments are estimated to have risen 7.2%.

Farm Cash Receipts (% Change)		inger e d'arganism a strangantina.
	2009	2010ytd
Canola	5.3	(15.3)
Wheat	(4.9)	9.1
Hogs	1.7	(4.3)
Cattle	(18.1)	(23.0)

O Agricultural diversification has altered the structure of the sector. In 1990, wheat accounted for 29% of farm cash receipts but by 2009 only 16.9%. In 2009, the largest receipts source was canola (24.7%) followed by wheat, hogs (15.0%) and cattle (8.9%).

#### **Retail Sales**

- o In the first eight months 2010, Manitoba retail sales increased 6.4%, above the Canadian increase of 5.4%. Manitoba sales rose on the strength of motor vehicles (15.2%), personal care (11.0%), gasoline (10.5%) and home furnishings (10.1%).
- o In 2009, Manitoba retail sales declined 0.4% better than the 2.9% decline in Canada. The decline in 2009 retail sales was led by gasoline (-11.3%) and motor vehicle (-5.2%) sales. Recreation and music (11.4%), health and personal care (8.0%) and general stores (5.4%) have the largest increases.

#### Investment

O Statistics Canada's Private and Public Investment Survey from February 2010 shows that Manitoba's 2009 capital investment increased 4.0%, second highest among provinces. Manitoba was one of only four provinces to have an increase in investment in 2009. Investment in Canada declined 11.4%.

- O The Survey shows that Manitoba's private investment decreased 8.7% less than half the national decline of 17.6%. In 2009, private capital investment accounted for approximately 63% of capital investment in Manitoba.
- O Manitoba's public investment increased 36.1%, second highest among the provinces and significantly above the 13.4% increase in Canada.
- A number of major investment projects were underway in 2009, including the Winnipeg Floodway expansion, the Wuskwatim hydroelectric dam, the Keystone Pipeline and a new airport facility.
- O In 2010, capital investment is projected to decrease 1.1% below the Canadian increase of 4.4%. Manitoba's private investment is projected to decrease 7.8% and public investment to increase 10.3%.

## **Housing Starts**

- O In the three quarters of 2010, Manitoba starts increased 45.4%, above the national increase of 39.5%. Single starts rose 39.9% while multiples increased 59.3% to 1,429.
- O In 2009, Manitoba housing starts declined to 4,174 units, a 24.6% decrease and better than the 29.4% national decline. Single starts are down 17.6% while multiples declined 38.7%.
- O The 4,174 housing starts in Manitoba in 2009 is the lowest level since 2003 but is still better than any other year since 1988.
- O In the first ten months of 2010, Manitoba urban housing starts increased 38.1% while Canadian starts were up 32.6%. Manitoba single starts rose 29.7% while multiples increased 52.6% to 1,334.

Housing Starts (All Areas) (% Change)					
	<u>Manitoba</u>	Canada			
2007	14.1	0.4			
2008	(3.5)	(7.6)			
2009	(24.6)	(29.4)			
2010ytd	45.4	39.5			

## **Building Permits**

- o In the first nine months of 2010, the value of Manitoba building permits increased 13.8%. Permits in Canada were up 27.7%.
- O The value of Manitoba residential permits increased by 30.6% while non-residential permits declined 10.8%. The non-residential decline is led by institutional and government construction.
- The value of permits in Winnipeg rose 26.1% while outside of Winnipeg they decreased 1.6%.
- O In 2009, the value of building permits in Manitoba decreased 4.6%. Non-residential permits were up 16.1% while residential permits decreased 14.7%. Canada permits were down 13.3%.

## **Bankruptcies**

- In the first eight months of 2010, business bankruptcies were down 2.2% to 45 in Manitoba and declined 25.3% in Canada.
- In the first eight months of 2010, consumer bankruptcies decreased 20.4% Manitoba and 21.0% Canada.
- O In 2009, business bankruptcies decreased 36.9% to 65 in Manitoba, and declined 12.1% in Canada. The 65 Manitoba bankruptcies were the fewest since 1977.
- Consumer bankruptcies increased 20.6% in Manitoba below the 28.4% increase in Canada.

# **Foreign Merchandise Exports**

- In the first eight months of 2010, Manitoba exports decreased 10.9%, while Canadian exports were up 11.0%.
- In the first eight months of 2010, Manitoba's U.S. exports decreased 11.5% while non-U.S. exports were down 9.6%.
- In 2009, Manitoba exports decreased 18.2%, while Canadian exports were down 26.5%.
  Manitoba's U.S. exports decreased 19.6% while non-U.S. exports were down 15.2%.

Foreign Merchandise Exports (% Change)			
	2009	2010ytd	
All Countries	(18.2)	(10.9)	
U.S.	(19.6)	(11.5)	
Non-U.S.	(15.2)	(9.6)	

# **Hydro-Electricity Sales**

- o In the first nine months of 2010, the value of hydro sales increased 0.8% with a 1.4% decline in domestic sales being offset by a 7.2% increase in export sales.
- In 2009, the value of Manitoba electricity sales declined. Domestic sales increased while exports were down.
- O Approximately 80% of export sales are to the United States with the balance to other Canadian provinces. Export sales to the U.S. are priced in \$US; consequentially the decline was substantially influenced by the rising Canadian dollar.
